Dear Friends,

**Master of Science in Energy and Environment offered by
School of Energy and Environment, City University of Hong Kong**

Greetings from the School of Energy and Environment (SEE), City University of Hong Kong (CityU)!

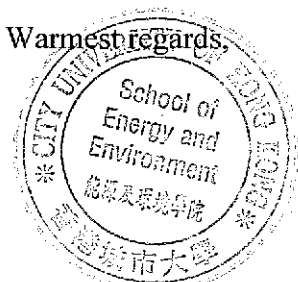

As the first and only academic unit in Hong Kong and one of the few in Asia specializing in the two most critical areas of our time, energy and environment, our School offers the taught postgraduate programme, *Master of Science in Energy and Environment*, aiming to equip students with the knowledge and skills in the two areas, pertinent to the role of energy and environmental engineers, sustainability managers, and government officials etc., which are in surging demand by society, worldwide business and industry sectors.

Application is commenced for the September 2016 admission. As your undergraduate students may be interested in the topics of energy and environment and would like to pursue a master's degree in the field, we are writing to solicit your help in informing your students of the opportunity to study this unique and exciting programme. Two copies of the poster with information of the programme are enclosed for your favour of circulation and posting.

Should you have any question, please feel free to contact Ms. Yu, at yingwai.yu@cityu.edu.hk (email) or (852) 3442 4426 (telephone).

Thank you very much for your support.

Warmest regards,

School of Energy and Environment
City University of Hong Kong
