

University of Glasgow | College of Science & Engineering

To whom it may concern,

I am writing to you from the College of Science and Engineering at the University of Glasgow.

I would like to make you and your students aware of the Scottish Funding Council funded Masters places that we have available here, in the College of Science and Engineering, commencing in September 2014.

We have MSc places available in the following programmes:

School of Physics and Astronomy

MSc in Sensor and Imaging Systems* – 20 funded places available

School of Engineering

MSc in Aeronautical Engineering – 5 funded places available

MSc in Nanoscience and Nanotechnology** - 10 funded places available

*The programme in Sensor and Imaging Systems is available to graduates with an Honours degree or equivalent in **Physical Sciences, Electrical Engineering** or **cognate subject**. Applications are also welcome from graduates with additional industrial experience, or with a 2:1 or above in Computer, Chemical, Biological or Medical Sciences, or Mathematics who have demonstrated enthusiasm and aptitude for science and technology pertinent to sensing and imaging.

The programme in Nanoscience and Nanotechnology is available to **science graduates as well as **engineering graduates**.

Award & eligibility: the award covers all tuition fees. Places are available to students domiciled in Scotland and the EU.

Deadline of application: 27th June 2014.

It would be very helpful if you could circulate this information among your students.

Thank you very much in advance for your help.

Yours sincerely,

Katherine Henderson

Recruitment and Conversion Marketing Officer
