

INFORMATION ABOUT EXTERNAL EXAMINATION VENUES

Dear Students,

During the winter exam period of the 2022/2023 academic year, in-person exams will take place in 4 institutions. This document contains basic information about each location.

General information

- Please, make sure you know for all of your exams whether they take place with personal attendance and, if so, at which location. The instructors have been asked to enter the exam locations of in-person exams in the “Description” field of the exam. If in doubt, contact your instructor well before the exam.
- Since limited capacity has forced us to set the total number of exam slots for in-person exams with a smaller margin than usual, we recommend applying for the preferred dates as soon as possible.
- Please leave the building after the end of the last exam at the latest.
- With the help of the student council, a student helper will be present at the external locations, to help the examinees find their way around.
- The examination rooms will have heating, but the temperature of the rooms may differ, so it is recommended to have also warm clothes with you.
- Please do not put perishable garbage in the bins on the exam days during the school winter break (December 22 - January 6), as the bins will not be emptied during the break.
